

Report to Governors (Nov 2015) - School Parliament

The School Parliament this year consists of 20 members, representing all year groups.

They have met twice; the first meeting was to gain a common understanding of their role in school and the second meeting focused on considering ideas for improvement that had been put forward by each form class. Some of these ideas have been put forward to SLT for consideration and will hopefully be acted upon in the near future.

School Parliament also had a presentation by Bethan Watkins from the Vale Youth Service, who spoke about The Vale Youth Forum. Following that presentation 3 pupils in Year 9 and 10 put their names forward to become members of this group.

Members of the School Parliament will be helping Mrs Roach to take assemblies in December so that they can make sure all pupils are aware of their role and what they are doing in school.
